Dear Sir/Madam,

I am a telecommunications engineer with 13+ years of experience in O&M. I am seeking a challenging position in an organization that provides opportunities to align accrued acumen towards a mutually fulfilling growth path. As apparent from my CV, my experience has prepared me to excel in this role. I have also displayed a wide range of exposure and in-depth experience in installation and operation and maintenance. My professional experience includes satellite communications Vsat units like (MITEC and CODAN and ANSAT and COMTECH 625 modems series), and microwave links (Ericsson, Acatel, Huawei, ZTE, NEC) and GSM radio 2G/3G/4G and FM/AM radio transmitters, and Power system like DC rectifier and UPSs and solar system, in addition to electromechanical (generators and ATS and MDB and ACs). And strong knowledge of WAN and LAN and Vlan and Vmware and cloud computing. I have also utilized my strong analytical thinking combined with excellent problem-solving skills that give me a unique edge from which to add value to your business. Moreover, my attention to detail, ability to work under pressure further enabled me to achieve great results. With my proven record of success in O&M, coupled with my team leadership skills, I will certainly surpass your expectations for this role. I look forward to discussing the position in detail. My attached CV details my experience. I look forward to the opportunity to meet with you to discuss my qualifications further.

Regards,

Ahmed Faroug
