

Professional Profile

I'm a civil engineer holding a bachelor's degree with honors in civil engineering. I have gained very valuable experience in the field of construction and engineering consulting. I'm having a second knowledge of designing, testing and evaluating a design's overall effectiveness, cost, reliability, and safety.

I have gained experience and knowledge through hard work in various fields such as contracting, engineering consulting and real estate appraisal. They have formed the solid foundation that allows me to have a job opportunity that meets my aspirations and my passion for a professional career in the future.
