*At Plan International, safeguarding children and young people has always been at the heart of what we do. We have a legal and moral responsibility to make sure we do not harm children and young people, or place them at risk. If we fail to do this we will not be able to realize our ambition of bringing about a world where all children and young people can flourish, and where their rights are upheld.*

Keeping children and young people safe and protected is not only what we do but who we are.
