

PERSONAL INFORMATION

ABEER KAMEL ABOBAKR AHMED

📍 KHARTOUM , ARKWET, Alblabel
☎ +24919923568
✉ abeer.kamel131@gmail.com

Date of Birth : 15/10/1995
Marital Status : Single
Nationality : Sudan
Known Languages : English, Arabic

INFO

My professional ambition is to contribute to engineering, best services in the field of electric and computer engineering. I have complete confidence in my skills and abilities to serve as a member of your team. If you seek professional engineer's, it will be my genuine pleasure to work for you , I have a practical interest in a position maintenance (software & hardware) and control application track, due to background in Automation. I have a desire to work in an environment where there is an opportunity of self-assessment and self-improvement in both individual and group based work that ultimately leads to the further development of the organization.

EDUCATION

AL zaiem Al Azhari University

Ex: electrical Engineering (computer engineering department)

Ex: 2019

EXPERIENCE

Electronic Maintenance shop

2016 - 12/3/2020 (Up to now)

Maintenance Engineering

- . Knowing of the basics of electric and electronics as a practical aspect
- . Connecting, installing and dismantling devices
- . Training to find and tracing the faults and how solve them
- . Using diagrams and datasheets for electronic circuit design
- . Dealing with the software googly

TECHNICAL SKILLS

Experience in Microsoft product

Ability to deal with software and hardware with high efficiency

Ability to work in a group or individually according to the job requirement

Ability to develop my self

COURSES & WORKSHOPS

Automation

1/5/2019 to 15/8/2019

Classic control

Plc (Programmable Logic Controller)

Plc Advance

Sensor

VSD (Variable Speed Drive)

HMI (Human Machine Interface)

SCADA (Supervisor Control And Acquisition System)

Entrepreneurship

6/10/2019 to 9/10/2019

Complete study the Capacity Building Program on Entrepreneurs Development & Investment Promotion (EDIP) - Arb model (Arab International centre for Entrepreneurship and Investment (AICEI) - Bahrain)

Maintenance of computer workshop

10/11/2018

.I have presented a workshop entitled (maintenance of computer) the workshop has started firstly by explaining the most common electronic elements such as (diode, transistor,, capacitor etc) and the role of every single element.
. How to understand the drawings of Electrical and Electronic circuits Identify common faults and how to solve them.
. identify the most common faults that occur in the electronic and electrical circuits and how to repair it.

Prosthetic Arm workshop

29/9/2019

The Workshop was affiliated with the organization (ADD International) we presented the project proposal and there was a great interaction between us and the organization in proportion to its need for project in this way and efficiency was a very wonderful work

ACHIEVEMENTS & AWARDS

Prosthetic Arm - electronic hand,The aim of the project is to design and build 3D printed prosthetic arm and controlled by Nervus signs (EMG sensor), To help amputee interact with the community by restoring lost function
