

CURRICULUM VITA

Mutasim Ahmed Abuagla Ahmed

Sudanese Borne in Dec.1967, Muslim, Married

Mobile: +974 55807609, +97433988531, +97455305029

E-mail: mutasimahmed96@yahoo.com

Educational Qualification: - Mechanical Engineering Diploma (H.N.D) from Sudan University of Sciences and Technology in 1994

Competency Key

- ▶ Total 20 Years of Erection, Commissioning, maintenance and hands on experience in OIL & GAS plant Rotary and Static equipment and army industry. (Sudan & Qatar)
- ▶ Exclusive 4 years of offshore experience in Gas production platform in QATAR

Work Experience

- ▶ 22/07/1995 – 15/10/1997 Mechanical Engineer with Sudan technical center which is belong to Sudan army.
 - I was working with team of engineers to modified some equipment to suit certain functions.
 - I participated in the design of Heat rectifier (Heat Exchanger).
- ▶ 24/2/1998 – 09/06/2015 I was working with Qatar Petroleum as following:-
 - # 24/02/1998 – 19/07/2001 Machinist at offshore workshop fabricating spare parts using Lathe, Milling, Shaper and Drilling, ...etc machines.

20/07/2001 - 01/10/2005 Plant Technician at PS4 offshore Gas Production station and 02/10/2005 – 09/06/2015 Plant Technician at Mesaieed NGL1&2 trains (Gas processing Plants).

- * Overhauling centrifugal single and multistage pumps , displacement pumps (piston, Gear, Diaphragm and screw pumps), Displacement air compressor piston and Screw, pressure safety valve (PSV) {release valve (RV)} and mechanical seals single and double.

- * served high speed pumps alignment by Graphical and laser kits.

- * Maintain auxiliary hydraulic pump, seal oil pump and replace air intake filters, Hydraulic filters, Seal oil filters, Fuel gas injection nozzles and Fuel gas filters of turbine.

- * Maintain Alfa level water maker package, Nitrogen package & chlorination package.

- * Maintain diesel engine of fire water pump and stand by generator .

- * Trouble shooting equipment failure

- * Maintain variety Heat exchangers (tube or plate) for tube and gasket leak, low flow...etc, and taking hydro test.

- * Maintain all static equipment (Columns, Vessels, Filters...etc).

- * Maintain Fans, blowers and all types of gearboxes.

- * Attend preventive maintenance of all equipment.

- * I participate in NGL4 shutdown as mechanical team member.

- * I designated as night shift maintenance coordinator for NGL1 shutdown and NGL2 shutdown supervising contractor to execute shutdown planning and write daily activities report.

* I delegated NGL1 plant Forman tow times using SAP (opening notifications, creating orders and sub orders, write daily and monthly activities report).

Certificates: -

*Permit to work system level 2 Certificate.

*Heart saver First aid CPR AED (American Heart Association)

*Hydrogen sulphide & Birthing Apparatus Certificate.

*I received Mabrouk Award Certificate from QP

*I received Al-Hasba Award Certificate from QP

Courses: -

*23/02/1997 – 15/06/1997

Non destructive test course at Azza Transport CO. LTD. Training Center Khartoum.

-Radiographic

-Ultrasonic

-Eddy Current.

-Liquid Penetrant

* 05/12/2004 – 16/12/2004

Pump Maintenance Course at Qatar Petroleum Corporate Training Department.

* First Aid CPR AED Course at Qatar Petroleum Corporate Training Department.

Skills & Hobbies: -

- Fluent in both Arabic and English (reading, writing and speaking)
- Familiar with computer applications.
- Fully familiar with safety
- Familiar with SAP.
