CURRICULUM VITAE

PERSONAL STATEMENT

Motivated recent graduate holding a Bachelor in Petroleum Engineering from Sudan University of Science and Technology. Seeking an entry level position in the oil industry companies. Having Engineering knowledge that covers most areas- of the oil industry mix including drilling, workover, production, well testing and intervention. Additionally, I have a solid strong experience in workover site jobs. I am looking for a position in a small to mid-sized growing firm where I can use my skills to their full potential..

OBJECTIVE

My immediate career goal is to improve my experience and seek a position for my career path where I can develop my skills as well as experiencing a good working environment with an innovative and a dynamic company that can utilize my skills in a suitable position and helps me achieving my ambitions which will expand my vision to Petroleum engineering. Willing to learn, understand and plan.
