

Curriculum Vitae (C.V)

Personal Information:

Name: **Moayad Abdelazim Eltayeb Elmamoun.**

Nationality: Sudanese.

Marital Status: Married.

Place & Date of Birth: Aljazeera – Sudan – 18 / April / 1985.

To Contact: **00249-900902096**

E-Mail: Moayad.abdelazim@dalgroupp.com

almoayadbella@gmail.com.

Qualifications:

- Master of Business Administration (**MBA**) – Project Management - Sudan International University (First Degree Upper A+) – **Sudan (Jan-2016).**
- Bachelor of Engineering (**B.Sc.**) in Electronic & Communication Engineering – Engineering & Petroleum Faculty – Hadhramout University of Science & Technology **Yemen - (Jul 2007).**
- International Computer Driving License (ICDL). **License UN 07 08 9572 March 2010**
- Certified Lead Quality Management System Auditor (**ISO 9001:2015**) at IRCA - The International Register of Certificated Auditors (IRCA) - Lloyd's Register Quality Assurance (LRQA) – **UK**
License NO. 10/0733 September 2016
- Certified Lean 6 Sigma Black Belt –International Association for Six Sigma Certification (**IASSC**)-US.
- Certified Energy Management System Internal Auditor (*En Ms ISO 50001*).
- HACCP Certificate from the International Institute of Quality – **Sudan**
Application of HACCP System in Food Preparation, Manufacturing & Handling - License 1216 August 2010.
- Certified **Harvard Manage Mentor** – Harvard Business School – South Africa Dpt.
- Certified **PLC Siemens S7 Professional** – Siemens Sematic – South Africa.
- Certified **Food Safety Lead Auditor (ISO 22000:2005)** from IRCA - The International Register of Certificated Auditors (IRCA) - Lloyd's Register Quality Assurance (LRQA) – **UK**
License No. 64366 - September 2017.
- Certified Professional **KAIZEN & GMP+** Practitioner.
- Certificate on Machines and Process Technology for the Feed Milling Industry – Swiss Feed Institute **Bauhler – Switzerland 2019.**

Work Experiences: (> 12 Years)

➤ **Production and Manufacturing Supervisor - DAL Food Industries Co. Ltd**

Jun 2014 - Present (5 year 6 Month)

(www.dalgroupp.com)

- Supervising the Packaged Consumer Goods (*PCG*) plant Operations – 2 Years, 5 Month.
- Supervising *Animal Feed Factory* – Production Operations – 2 Years, One month.
- Monitoring and controlling all Production lines performance:
 - *Production Operations, Troubleshooting & Maintenance, Production Plan Targets. Planning & execution.*
 - *Monitoring & control the Overall Plant Performance & Overall Equipment Efficiency.*
 - *Managing Total Productive Maintenance activities & enhance Good Manufacturing Practices.*
- *Supervising, Monitoring, motivating & Controlling Staff Performance.* Leading the Lean 6 Sigma Team, Planning for process improvement, analyzing the root cause failure, finding the optimum solution to the execution phase, evaluation & feedback stakeholders with the new value added.

- Monitoring & Controlling Downtime rate, Raw material / Finish goods waste rate, Conformance with Quality standards, Conformance to production plan targets, Masters plant processes & lines parameters.
- Monitoring & evolving the execution of 5S, ISO22000, HACCP & Kaizen programs, Evaluate team level and potential, Lead, motivate, train and build team spirit.
- Assist in ordering of Packaging / Raw materials & Critical items from local/Overseas suppliers and identification of redundant stock.
- To coordinate between production and other involved departments in the business to insure process is well served as per policies, and required outputs are available on time.
- Insure Asset integrity.
- Complete all relevant sections of the work orders on completion of the tasks. Generate new work requests to highlight plant and equipment failures.
- Provide assistance for projects & Write a technical and commissioning reports whenever is needed.
- Provide the direct HOD with required reports to facilitate proper planning and decision making.

Achievements:

- *Improving the Overall Milk Powder Packing Plant Performance from 34.5% to 93%.*
- *Reducing the No. of source of customer complaints by 94% (in Milk Plant).*
- *Meeting the sales forecast by 100% achievement ratio and full executing for the production plan across the year.*
- *Minimizing the product defect ratio in Sugar packing factory from 11% to 1.2%.*
- *Reducing the loading time for customer trucks by 34% (DAL Feed Plant).*
- *Led DAL Feed Plant to get ISO22000 Certificate.*
- *Reducing Feed Plant raw materials losses from 4% to 0.8%, Technical Job & effective Inventory Control.*
- *Eliminating 91.5% of the Inventory losses/variances.*

➤ **Production Engineer – DAL Food Industries**

Jul 2010 – Jun 2014 (4 Years)

(www.dalgroup.com)

- Scheduling production and executing production plan while maintaining product quality up to the standards.
- Focal Point of plant maintenance.
- Reporting production and process to the production manager.
- Analyzing process performance and lines utilization.
- Working experience in HACCP and ISO 9001:2008
- Working experience in Lean Manufacturing and Value Stream Mapping.
- Working knowledge of 5S and Kaizen .
- Leading TPM team (Total Productive Maintenance).
- Inventory control of raw materials and packaging materials.
- Performing common preventive maintenance and arranging with maintenance team for major problems.
- Supervising packing processes and packing labors and operators and processing operators.
- Assigning staff to their work station and scheduling of their annual leaves.
- Ensuring plant hygiene and labors commitment to health and safety rules and Good Manufacturing Practices.

Achievements:

- *Improving Sugar Packing Yield from 97% to 99% which led to save 1.3M USD.*
- *Improving Milk Powder Packing Yield from 98% to 99.3%. Cost saving of 354,461 USD.*
- *Reducing 92% of the total waste of the sugar plant.*
- *Preparing Forms, Procedures and Work instructions and orient labors about ISO & HACCP which led to including Packing plant in the scope of SAYGA Flour Mills ISO 9001:2000 certificate.*
- *Member of packing plant HACCP team.*
- *Participated in a Kaizen event for reducing waste.*

- Participated in a Kaizen event for reducing packing down time.
- Participated in developing new products.
- Working as Internal QMS (Quality Management System) Auditor when needed (IRCA Certified).

➤ **Production Engineer at Hala Factory for Plastic Manufacturing**

Nov 2008 - July 2010 (1 year 9 months)

(<http://mamounelberier.com/>)

- Operating, monitoring & controlling production line (Operations, Repair & Maintenance).
- Execute all maintenance tasks related to Electrical &/or Electronics field.
- Installing, Operating, Troubleshooting & Maintain the Injection Molding Machines (IMM), Labeling Machines, Blow Molding Machines, Sesame Sweet mixers & Packaging Machines, Other Factory devices such as PFC, Air Compressors, Diesel Generators, Chillers...etc.
- Ensure all automation systems (PLC & Micro Controllers) are running accurately & safely.
- Identifies operational problems by observing and studying system functioning and performance results; investigating complaints and suggestions; interviewing process supervisors and operators; completing troubleshooting procedures.
- Identifies operational priorities by assessing operational objectives; determining project objectives, such as, efficiency, cost savings, energy conservation, operator convenience, safety, environmental quality; estimating relevance, time, and costs.
- Develops operational solutions by defining, studying, estimating, and screening alternative solutions; calculating economics; determining impact on total system.
- Improves operational quality results by studying, evaluating, and recommending process re-design; implementing changes; contributing information and opinion to unit design and modification teams.
- Provides operational management information by collecting, analyzing, and summarizing operating and engineering data and trends.
- Assist in ordering of spare parts and materials from local/Overseas and identification of redundant stock
- Provide the direct Supervisor with required reports to facilitate proper planning and decision making.

➤ **Maintenance Engineer - Electronic Devices at Jabal Awliya locality - Governmental Organization**

Nov 2007 - Nov 2008 (1 year 1 month)

- Responsible for designing, testing & troubleshooting a wide variety of electronics for multiple purposes.
- Repairing & troubleshooting the communication devices, electronics and microcontrollers and associate hardware , PLCs, remote multiplexing terminals ,digital data communication control systems ,digital and analog control system ,telecommunication , broadband wireless system ,TCP/IP networking ,CCTV and surveillance systems , with regards to power supervisory systems.
- Provide technical support for staff in all aspects of IT & electronic systems, after suitable training has been completed.

Honors and Awards:

- **Certificate of Appreciation**
Hadhramout University of Science & Technology – Yemen, May 2004
- **Certificate of Appreciation**
The Association of Sudanese Students at Hadhramout – Yemen, Jul 2007
- **Certificate of Achievement (*Employee of the Year Certificate*)** Hala Factory for Plastic & Papers Packaging – Sudan 2009
- **The Best Employee Performance (5/5) of the Year 2013** – Sayga Investment Co. – DAL Group.
- **The Best Employee Performance (5/5) of the Year 2014** – Sayga Investment Co. – DAL Group.
- **The Best Employee Performance (5/5) of the Year 2015** – DAL Food Industries – DAL Group .
- **The Best Employee Performance (5/5) of the Year 2017** – DAL Food Industries – DAL Group.

Organizations

Sudanese Engineering Society Membership - November 2008 to Present

Federation of Sudanese Engineers Membership - November 2008 to Present

Sudan Engineering Council Membership - November 2008 to Present.
