

RAZAN SAMI SALIM

---

Born and raised in the Kingdom of Saudi Arabia, Riyadh. Originally from Sudan, an Interior Design Diploma graduate, completed thesis evaluating the youth and their artistic visions and missions which have not been supported and designing an art institute to fulfill their thirst in art.

Completed Bachelor's Degree of Arts in Interior Architecture with a Tan Sri award for leadership and excellence. Constantly immersed in a mixture of cultures, grown to learn and appreciate diversity. This diversity has become a big part of who I am as a person and as a designer.

I believe that good design is an expression of many contradictions, one that is simple yet complex, considers form and function whilst possessing a timeless quality but pushes the boundaries of design.

My approach to design is a mixture of dynamism, and innovation, creating new spatial experiences.

I believe that life is filled with challenges whether it is in the industry or in personal matters in general, but it's what makes us grow as human beings, and overcoming those challenges makes a very strong, independent, committed and successful individuals.

---
